POLICY/PROCEDURE: #7: Privacy Policy

EFFECTIVE DATE: August 4, 2006

REVISION DATE: December 23, 2019

How CAL Uses Personal Contact Information

1. Colorado Association of Libraries' members and conference/workshop attendees are asked to register and voluntarily provide some information to assist us in administering their member benefits, CE/conference registration and training. This information is not sold or distributed in any manner beyond what is stated here, and is not sold or given to anyone to be used for non-CAL purposes.
2. CAL makes a mailing service available to those who are interested in providing library-related information to our members. CAL does not provide member information to vendors. Instead, CAL provides the mailing service by administering the mailing so that member contact information does not leave CAL's control.
3. CAL sometimes prepares a list of attendees at a conference/CE workshop so the registrants have information so they can contact each other. CAL offers the option for registrants to not be included on that list; if a registrant opts out of that list, that person's information is not included.
4. CAL maintains an online membership directory. Members can opt out of inclusion in the directory.

POLICY/PROCEDURE: #8: Conflict of Interest Policy

EFFECTIVE DATE: May 14, 2010

REVISION DATE: December 23, 2019

Conflict of Interest

In their dealings with the business or property of the Association, members of the Board may not use their relation to the Association for their own personal gain.

Principles

The following five principles will serve as guidelines for Board members:

1. Members of the Board shall maintain the highest standards of business ethics in transactions with the Association.
2. Members of the Board are expected to perform their duties faithfully and efficiently and never give rise to suspicion of improper conflict within the Association.
3. Members of the Board shall not accept any favor or gratuity from any person or firm which is engaged in or attempting to engage in business transactions with the Association, which might affect the Board member's judgment in the impartial performance of his duties.
4. Board members are not privileged to use inside information for their own personal advantage or fail to disclose relevant information or misrepresent facts to the Association's members.
5. Full disclosure by a member of any potential conflict between his or her personal interest and the interest of the Association is required by the standard of good faith.

Procedures

1. When any such interest becomes relevant to any subject requiring action by the Board or any of its associations, divisions, or committees, a Board member having a conflict shall call it to the attention of the Board, association, division or committee, and a Board member shall not vote on the subject in which the member has a conflict of interest, shall not use personal influence, and, in those cases where a quorum of the meeting called for the purpose of voting on the subject has not yet been established, the Board member shall not be counted.
2. If excluded from voting because of a conflict of interest, a Board member will be required to state briefly the nature of the conflict, and may be requested to answer pertinent questions of other Board members when that Board member's knowledge of the subject will assist the Board or any of its committees. The Board may request that a Board member thus excluded from voting on a subject leave the meeting temporarily while the subject is being debated and voted upon.
3. The minutes of the meeting shall reflect that a disclosure was made, that the Board member who stated a conflict of interest did abstain from voting, and, in those cases where a quorum was not already established, that the Board member was not counted in determining the quorum.

4. **Violations of Conflict of Interest** – If the Board has reason to believe that an interested party has failed to disclose an actual or potential conflict of interest, it shall inform the person of the basis for such belief and afford the person an opportunity to explain the alleged failure to disclose. If, after hearing the response of the interested party and making such further investigation as may be warranted in the circumstances, the Executive Board determines that the interested party has in fact failed to disclose an actual or potential conflict of interest, it shall take appropriate disciplinary and corrective action.
